7	57337137	How many steps to hydraulic equilibrium?	5	Nine plus pipe
8	56757140	Three men in the road tell us about the presence of what?	5	Water

Instructions:

You must go to the first check point on your card (1 or 8). After that you can go to any check point in any order, although there is a clear circuit clockwise or anticlockwise.

Points will be awarded according to time of completion (highest points for those finishing first and lowest for those finishing last).

Don't follow the torchlight of others, there's nothing to say that they know where they are!

Don't share the answers with other teams; they may score higher than you as a result.

This navex is designed to be completed with map and compass, the use of GPS will defeat the object.

Safety:

Action on getting lost

Action on getting injured
